Documentation
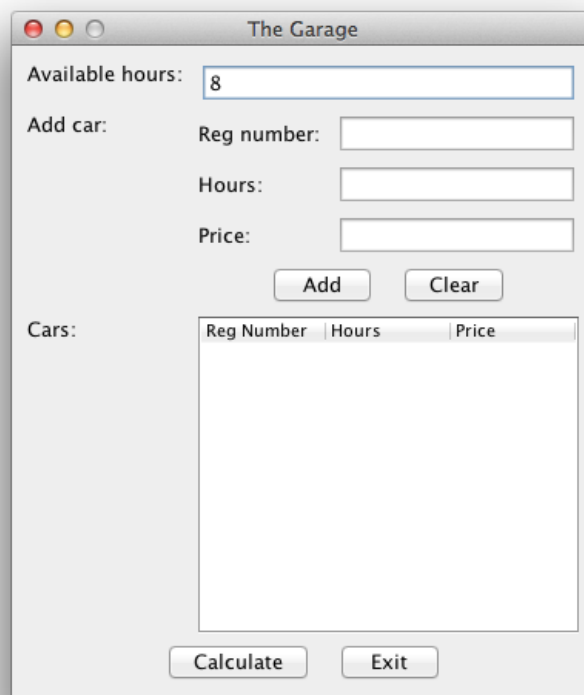

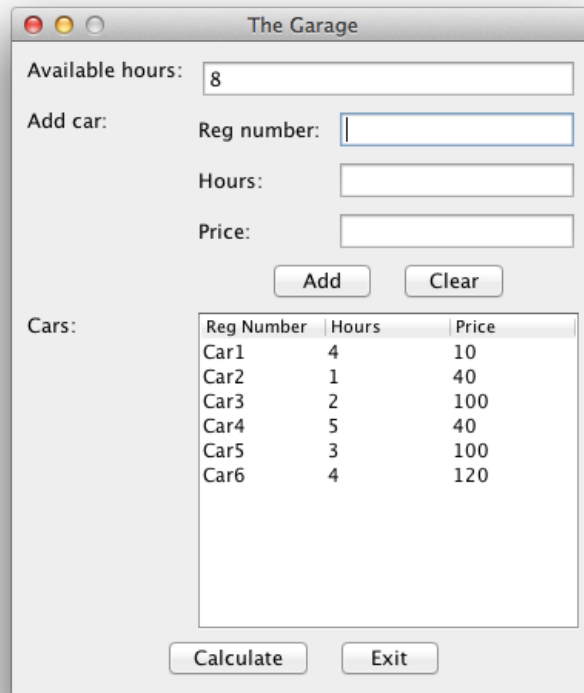

User Interface

Figure1. Application GUI

Garage is a GUI application running over JRE.
After executing, a window will appear for user to control.

Figure2. Add cars

User can add cars by filling 'reg number', 'hours', 'price' then clicking 'Add' button.
Click 'Calculate' button to calculate the best scheme.

Figure3. Calculate result

Build

Maven 2.0+ is required to build from source.

```
cd Source
mvn clean install
```
